

The Power of We™

Full Size Collaboration for Midsize Companies

COLLABORATE
LIKE NEVER
BEFORE.

Engage your
workforce.
Improve
relationships.
Make teams
more cohesive.

A product manager, a sales rep and a marketing director are all having a discussion—only in this case, the product manager is in his office, the sales rep is out in the field and on her smart phone, and the marketing director is on his mobile and has opened the spread sheet they're discussing on his tablet while waiting for a flight. Sound familiar?

To succeed in today's mobile, virtual business landscape, you need a rich, seamless environment that instantly keeps your employees, business partners, and customers connected, effortlessly collaborating, and sacrificing nothing in the process. It's the difference between simply doing business, or doing business simply.

COLLABORATE LIKE NEVER BEFORE.

Engage your workforce. Improve relationships. Make teams more cohesive. Avaya has a comprehensive collaboration solution that integrates unified communications, networking, security, video, and support, all from a single source.

At its heart is Avaya IP Office, our proven, single software platform that extends Avaya collaboration innovation to midsize companies, creating a seamless user experience for voice, video and mobility, regardless of the device. It scales simply to 2,000 users, so your solution can grow with your business. It offers simplified administration and management to reduce IT overhead.

LET'S FACE IT.

Video collaboration supports relationship building among distributed teams, giving people the power to quickly and easily connect to anyone, anywhere, anytime, on a wide variety of devices. The Avaya Video Solution for IP Office is unique in that it enables collaboration between a room system, desktops, and mobile devices.

LET'S TALK NETWORKING.

Deploying a collaboration solution directly impacts your network—which is why Avaya takes an application-first approach to networking, with integrated pre-tested solutions that accelerate time to service. Your network is compliant to the applications that ride on it so that it can meet user expectations for quality.

About Avaya

Avaya is a global provider of business collaboration and communications solutions, providing unified communications, contact centers, networking and related services to companies of all sizes around the world. For more information please visit www.avaya.com.

SAFE AND SECURE.

Peace of mind is also part of an Avaya solution. Adding an Avaya Session Border Controller provides comprehensive, affordable security for your solution. It secures SIP trunks, enables remote connections without a VPN, encrypts connections to prevent eavesdropping, and includes intrusion detection / intrusion protection systems to guard against denial of service attacks, call hijacking and toll fraud.

AND FLEXIBLE, TOO.

We offer flexible deployment options to help reduce your hardware footprint, and the costs that go along with it. Plus, an Avaya IP mid-market collaboration solution supports the broadest range of end points, including analog, digital, IP, soft phones, PCs, Macs, Android and iOS smart phones and tablets. So you can take advantage of investment protection and new capabilities.

A SOLUTION THAT MOVES YOUR BUSINESS FORWARD.

Don't just meet the demands of business—exceed them, with a collaboration solution that lets you communicate like never before, creating an enhanced experience across every platform, every device, for every employee, business partner, client, customer.

EASY DOES IT.

Too often, companies postpone unified communications and collaboration solution decisions because of the daunting task of deployment. Not here. Skilled Avaya partners make the process easy, offering networking, security, video, third-party applications and support to deliver a comprehensive solution for midsize companies, all from a single source. Reducing risks and headaches.
