

Bulletin No. 196_OS_7400_SD

June 8, 2009

New SD Media Card for the OfficeServ™ 7400 System

Technology will forever keep progressing. The MMC+ card is fast becoming yesterday's news. To keep pace, Samsung will now provide all the OfficeServ 7000 software with 1GB Secure Digital (SD) cards. The OfficeServ 7100 and OfficeServ 7200 have already converted to (SD) Media cards and now with this bulletin, the OfficeServ 7400 is converting. The Media Drive on the MP40 can support either MMC+ or SD Media with the correct software installed. The net effect of this change is simply the OfficeServ 7400 software is provided on a new (SD) Media Card.

Beginning with the launch of new system software V4.30i all software for the OfficeServ 7400 will be delivered on an SD media card. The SD Media card comes with a write protect switch. This switch must always be in the unlocked position which the switch is towards the electrical leads.
