OfficeServ™ SMT-i Series IP Telephones Release

TRAINING AND CERTIFICATIONS

If you are already certified on the OfficeServ ITP you will be assigned, at no cost, one new module and a test to upgrade your certification to include the new SMT-i Series phones. You are required to finish the new module and the certification test to obtain technical support on the SMT-i Series phones. This new module includes lessons on updated hardware and software, and instructions on how to register and upgrade phone software.

If you are new to Samsung or have not acquired the OfficeServ IP certification yet, please purchase this online course (3030-02-OL) at www.samsung.plimus.com.   It is the replacement for the previous OfficeServ ITP course (3030-01-OL). This new course includes OAS card programming, MGI and MPS Service and of course the new SMT series IP telephones.

If you have any questions related to this training course please refer to *Training Bulletin TN051010: Two New Technical Certification Courses,* or contact the Samsung Technical Training Department at 800-876-4782 Opt 3 or 972-792-2094 or via e-mail at BCS.Training@samsung.com.
