"number one in brand loyalty eight years in a row"

Samsung mobile phones have been rated number one in brand loyalty by consumers eight years in a row, according to Brand Keys, a leading independent authority on brand loyalty.

* Many of the services and features described above are network dependent and may require additional subscription and/or usage charges. Not all features are available for purchase or use in all areas. Other conditions and restrictions apply. See carrier for more information. All data and standby times are approximate. Battery performance depends on network configuration, signal strength, operating temperature, features selected, data, and other application usage patterns. Internet content/services designed for mobile devices.

** The Samsung Mondit™ (SWD-M100) supports Bluetooth® Profiles for wireless handsets, hands-free accessories, and object exchange. Both devices must be compatible with object exchange profile. Copyrighted material cannot be transferred.

ABOUT SAMSUNG TELECOMMUNICATIONS AMERICA

Samsung Telecommunications America, LLC, a Dallas-based subsidiary of Samsung Electronics Co., Ltd., researches, develops and markets wireless handsets and telecommunications products throughout North America and is currently #1 in mobile phone sales in the U.S. For more information, please visit www.samsungwireless.com.

ABOUT SAMSUNG ELECTRONICS COMPANY

Samsung Electronics Co., Ltd. is a global leader in semiconductor, telecommunication, digital media and digital convergence technologies with 2007 consolidated sales of US\$105 billion. Employing approximately 150,000 people in 134 offices in 62 countries, the company consists of two main business units: Digital Media & Communications and Device Solution. Recognized as one of the fastest growing global brands, Samsung Electronics is a leading producer of digital TVs, memory chips, mobile phones and TFT-LCDs. For more information, please visit www.samsung.com.

TIPS & TRICKS

NAVIGATING THROUGH MENUS

As you navigate through a menu, options display on the screen as scrollable lists. Menu tabs (located at the bottom of most screens, provide access to additional screen options).

To navigate a scrollable list:

1. From the **Today** screen, touch **Start** ().
2. Touch and gently press an onscreen option.
3. From the available list of options you can either:
 - Touch an onscreen entry to activate it.
 - Firmly press and slide your finger up or down the screen to scroll through lists of menu items.
 - Navigate through a long list by pressing either volume key up or down.

Note: Tapping or touching individual entries on the list opens the list entry. Scrolling requires that you press firmly on the screen then drag. When scrolling through a list (see adjacent image) make sure not to touch or press individual entries on the list as this will open the list entry.

WIMAX FROM CLEAR

CLEAR™ offers super fast mobile internet via its WiMAX network. The Mondri™ comes with a built-in WiMAX modem and only requires use of an active CLEAR account.

Activating the Internal Modem

- Launching WiMAX CM automatically activates the internal WiMAX components.
- If WiMAX is activated upon Startup, this will greatly decrease your battery usage times.
- You must have a valid and active CLEAR account prior to connection. Your device's MAC ID needs to be associated with your account.

Initiating a WiMAX Connection

1. From the Today screen, touch **WiMAX CM** (left softkey), – or – Touch (Applications) (left screen) and touch **WiMAX CM**.
2. Touch **Connect**.

Note: WiMAX service is not available in all markets. An active WiMAX service must be in use during access of WiMAX-specific features.

OFFICE OUTLOOK

Microsoft® Office Outlook provides a secure email app. that operates in conjunction with an Exchange Server. ActiveSync® can be used to easily synchronize data between your computer and your Mondri device.

Configuring Outlook Exchange Using ActiveSync

- Before beginning, verify you have an active data connection.
 1. From the **Today** screen, touch **Start > Programs > ActiveSync**.
 2. Touch **Menu** (right softkey) > **Add Server Source...** and use the QWERTY keyboard to enter the necessary information.
 3. Uncheck the **Attempt to detect Exchange Server Settings** box and touch **Next** (right softkey).
 4. Enter your Server Address, select your SSL encryption parameter and touch **Next** (right softkey).
 5. Enter your user name, password, Domain Name and touch **Next** (right softkey).
 6. Select your sync options and touch **Finish** (left softkey).

INSTANT MESSAGING

Chat in real-time using a built-in instant messenger service such as Windows Live Messenger®. Login while on-the-go and use your available broadband connection to stay connected with your friends and family.

Log onto Windows Live Messenger

1. From the **Today** screen, touch **Start > Programs > Messenger**.
2. Touch **Sign in** (right softkey) to begin the login process.
3. Read the onscreen licensing agreement and touch **Accept** (left softkey).
4. Touch the **E-mail address** and Password fields and use the QWERTY keyboard to enter the information associated with your Messenger account.
5. Select an email carrier (hotmail.com, live.com, msn.com, or Other [such as yahoo.com]).
6. Touch **Next** (left softkey) to connect to the remote service and complete the login process.
