SAMSUNG

Converged and IP-Enabled Solutions

Solving Business Needs with Smart Solutions

Your customers choose you because you provide the services and solutions they need at affordable prices. They depend on you for the right technology, with the proper performance, and Samsung continues to deliver all the tools you need to succeed. The OfficeServ™ Series brings you a powerful converged system of IP and TDM networks, Voice and Data applications, and both wireless and wireline solutions, all contained in a single chassis. This means new operating efficiencies, service offerings, and opportunities are available to the small to mid-size business today. Samsung creates affordable, easy to administer, converged systems that can revolutionize the way your employees communicate and network.
