TECHNICAL BULLETIN

Date: August 17, 2000
NO.: 2000-07

TITLE: Cadence – DCS 400si Expansion Cabinet

When configuring a DCS 400si system with Cadence it is very important to observe the following restriction:

Cadence for the DCS 400si (CVM16A/1.0) when installed in the main Cabinet can be expanded to 16 ports. However if Cadence is installed in a slot in the Expansion cabinet it cannot be expanded beyond 12 ports. Ports 13 through 16 cannot be used. For this reason it is advised that Cadence be installed always in the main cabinet.
