TECHNICAL BULLETIN

Date: 01/10/02

NO.: 2002-02

TITLE: Cadence System Administrator "No Call Progress" Description

The purpose of this bulletin is to inform you of a discrepancy in the Cadence General Description / System Administration book.

The description for No Call Progress found in Part 3 of the System Administration section, page 3.2.4 section 3.2.7 describes a different feature. The description defines the 'Direct Access' feature not 'No Call Progress'. Please update your 'Technical/System Administration manuals' with the updated page attached with this bulletin labeled "Tech Bull 2002-02tm".

If you have any questions about this or any other Technical bulletins please contact Technical support by phone 1800 737 7008 or by email techsupportmiami@sta.samsung.com
