

Bulletin No.: 180_OS7100_Wall_Mount

July 22, 2008

OfficeServ™ 7100 New Wall Mount Bracket Kit

Samsung Telecommunications is pleased to announce the release of a new style of OfficeServ 7100 wall mount bracket. This new bracket is more flexible and will permit customers to install the OfficeServ 7100 KSU securely to the wall in any direction.

Effective immediately (July 22, 2008), all OfficeServ 7100 cabinets shipped will include this new and improved wall mount kit.

For your convenience installation instructions are included in this bulletin. They will be added to the OfficeServ 7100 Installation Manual. The entire OfficeServ 7100 Technical Manual will be posted on GSBN (www.samsunggsbn.com) in 30 days for downloading.

If you have any questions regarding this notice, please contact your Regional Sales Manager, your Customer Service Representative at the number provided below, or via email at BCS.Sales@samsung.com.

OfficeServ™ 7100 New Wall Mount Bracket Kit

1. Installing on a Wall Using the Two Piece Bracket Kit

This section describes how to install the OfficeServ 7100 cabinet on a wall. The OfficeServ 7100 wall mount bracket is required (included with the cabinet).

Required Tools

Mid-sized Phillips screw driver

Electric drill

Hammer

Wall-mount bracket

q Four plastic anchors

w Four cross-type screws (shorter)

e Four locking screws (longer)

2. Wall Installation

CAUTION: Only mount OfficeServ 7100 onto a wall capable of supporting the 7100 cabinet, associated blocks, cables and peripheral equipment.

- 1) Turn the 7100 cabinet on its bottom side. Using the four short screws, install the two wall mount brackets to the bottom of the cabinet. *The wall mount brackets must be correctly installed onto the cabinet with the star shaped holes angled out away from the cabinet as shown below.*
