Manufacture Discontinue Notice Certain Line & Trunk Cards

Manufacture Discontinue Notice	
Last Time Order Date:	February 27, 2006
Last Time Ship Date:	February 28, 2006
Manufacture Discontinue (MD) Date:	February 28, 2006

Introduction

Samsung Telecommunications America would like to inform Authorized Dealers and Distributors of the Discontinuation of a number of line and trunk interface cards, including the 8-port Digital Line Interface (8DLI) and 4-port Single Line Interface (4SLI) line cards. Specific details of which part numbers are being discontinued are described in the table on the next page. Samsung strives to provide customers with affordable and powerful communications systems. Numerous system and software enhancements and the availability of newer cards such as the 16-port Digital Line Interface (16DLI) and the 8-port Single Line Interface (8SLI) cards on current platforms has drastically reduced the market for the older line and trunk cards. Samsung's commitment to reduce lead emissions in manufacturing in compliance with federal guidelines is further reason for this action.

Definition

Manufacture Discontinue Definition – This notice serves as formal communication of Samsung Telecommunications America's intent to Manufacture Discontinue (MD) the product(s) noted. **Should inventories of these products be available after the Manufacture Discontinue date, customer orders will be fulfilled until those inventories have been exhausted.** The MD of these products should not be interpreted as the discontinuance of any Samsung Telecommunications America agreements to support the existing population of product in the field. Technical Support, Parts and Services to existing installed product will continue to be provided for two years from the MD date.

Dealer Actions

Samsung Authorized Dealers should prepare themselves for the manufacture discontinue of these products in the following manner:

- Standardize on the updated and more capable iDCS 500 cards (16 DLI, 16 SLI, 16 MW SLI), and trunk cards (TRK C1, TE/PRI) for new customers.
- Purchase spares of the listed cards while supplies last
- Implement a support plan for the installed base of systems with affected line and trunk cards.
- Upgrade affected systems to one of Samsung's IP-Enabled system platforms as opportunities as arise.
