Manufacture Discontinue Notice iDCS 16 Digital System

Manufacture Discontinue Notice	
Manufacture Discontinue (MD) Date:	August 1, 2007

Introduction

Samsung Telecommunications America would like to inform Authorized Dealers and Distributors of the planned discontinuance of the iDCS 16 and selected components. Specific details of which part numbers are being discontinued are described in the table on the following page. The iDCS 16 System is a digital system that is limited to 12 digital stations and can not be made IP-Enabled. With the rapid changes in the market and technology, the OfficeServ 7100 IP-Enabled system has been positioned to replace the iDCS 16 system. The OfficeServ 7100 can be configured to provide to support the Digital, Analog and IP Applications (IP Keysets, IP Wireless LAN, Softphone, and SPNet Networking) and the CTI Applications that are currently available with the new Samsung product families.

Definition

Manufacturer Discontinue Definition – This notice serves as formal communication of Samsung Telecommunications America's intent to Manufacture Discontinue (MD) the products noted. **Should Samsung have inventories of these products available after the Manufacturer Discontinue date, customer orders will be accepted and fulfilled until the inventory has been exhausted.** The MD of these product items should not be interpreted as the discontinuance of any Samsung telecommunications America agreements to support the existing agreements to support the existing population of iDCS 16 product in the field. Technical Support, Parts and Services to existing product will continue to be provided for two years from the MD date.

The DS 24D Keypad and the SVMi-2E Voice Processing system associated only with the iDCS 16 will continue to be available to order from STA after the MD date in support of the embedded base.

SVMi-2E i-Button 2-port	KPSVM-B2VI/XAR

Dealer & Distributor Actions

Samsung Authorized Dealers and Distributors should prepare themselves for the MD of these products in the following manner;

1. Standardize on the OfficeServ 100/500 and/or OS 7000 Family of Products (OfficeServ 7100, 7200, and 7400). These have all the applications and services needed to meet current and future customer needs.
2. Implement a support plan for their installed base of iDCS 16 systems. If there is a need for additional products to support the base then orders should be submitted prior to the MD date to assure there will be product available.
3. Technical Support will be available free of charge for two years from the MD date. Plans for continuing support should be formulated.

If you have any questions regarding this notice, please contact your Regional Sales manager, your Customer service Representative at the number provided below, or via e-mail at BCS.Sales@samsung.com.
