Technical Training Announcement

BCS Training is pleased to announce the addition of a new course to the online training system (learnsamsung.telecom.com). The new course is titled "OS7000 Data Hardware Installation" and can be found in the course catalog under the heading "Data." This course addresses the installation and initial configuration of the following Data Cards for the OS7200 and OS7400 systems:

- WAN Interface Module (WIM)
- LAN Interface Module (LIM)
- PoE LAN Interface Module (PLIM)
- Giga-bit WAN Interface Module (GWIM)
- Giga-bit PoE LAN Interface Module (GPLIM)
- Giga-bit Switch Interface Module (GSIM)
- 7150 PoE PSU

Two additional Data Courses are also planned for release during 2007 that will teach technicians how to configure and test the features and applications which the above Data Cards support. We will inform you with future training announcements as to their availability. Until their release, this course will provide "Data Certification" on the OS7000 products.
