## Samsung BCS Training Announcement

As of April 2006, all tests for the current BCS training classes are now available on line on the BCS training website ([learn.samsungtelecom.com](http://learn.samsungtelecom.com)). These tests are accessed by either:

- Registering for one of the online courses and its test. Successful completion of the course and this test provides permanent certification for the associated product(s).
- Registering for one of the “Tests for Temporary Certification”. This registration accesses only the tests and provides temporary certification for the associated product(s) for a period of 90 days. After 90 days, permanent certification is required.

To register for a test, as well as any of the courses, please visit the [samsungGSBN.com](http://samsungGSBN.com) website and click on the “On Line Training Registration Request” to receive log on and navigation instructions for the training website.

**NOTE:** Because all tests are now available on line, BCS Training will no longer accept any paper-based correspondence that are mailed or faxed into BCS Training.

If you have any questions regarding this notice, please contact your Regional Sales Manager, or the Training Group at the number provided below, or send an email to [BCS.Training@samsung.com](mailto:BCS.Training@samsung.com).
