About This Guide

This user guide provides instructions for the use of Samsung's latest SMT-W5100E mobile phone. Please take the time to study this guide to become familiar with the operation of your SMT-W5100E and the benefits this new phone can provide. Keep this guide handy. You may need to look up instructions for infrequently used features.

Overview of SMT-W5100E

The SMT-W5100E(Wireless IP-Phone Mobile type) is the wireless mobile phone that allows a voice communication through IEEE 802.11b/g wireless LAN.

SMT-W5100E supports voice communication using IEEE802.11b/g WLAN. Based on IEEE802.11b/g standard, VoIP voice signals received are compressed to a voice CODEC and transferred as data packets.

Data terminals such as PDA and laptop PC that support wireless connection can be used along with the SMT-W5100E.

Phone Layout

Unpacking

After purchasing the SMT-W5100E phone, you have to check that the following items have been packed in the box.

Installing the Battery

1. Put the lower part of your battery, and then install the battery by pressing the upper part.

Removing the Battery

1. Press the button and the battery is separated and raised as shown in the figure below.

2. Lift up and remove the battery.

Charging the Battery

After checking each component of the phone, charge the battery as shown in the figure below.

- Charging the battery
- Charging the battery with phone

Checking the Battery Status

The battery status can be checked by looking at the battery status icons given below that appear on the LCD panel of the phone.

Battery charge

When using the phone for the first time after purchase, fully charge the battery before use since the battery may be discharged.

Low Battery Indication

When the battery power is completely discharged, the phone makes a warning sound and the battery icon starts to blink. It is recommended to change to a new battery or charge the battery immediately.

If the phone is still used after the warning sound and blinking, the battery will be completely discharged and the power will automatically go off.

BASIC FEATURES

To Turn the Power On

Press the  button for more than 2 seconds.
When power is on without the registration, the 'Unregistered' message will be displayed.

Register the phone according to the following procedure:

[MENU] → [8.System] → [1. Registration].

For more details, refer to descriptions in **[System]** of 'Application Menus'.

To Turn the Power Off

Press the  button for more than 2 seconds.
And then the phone automatically turns off.

Making a Call

There are several ways to make a call for the convenience of you. However, only the basic function will be introduced in this guide.

Refer to 'Phone Book' section in 'Application Menus' of this guide for how to use the latest originating number, latest called number, directory or abbreviated dial numbers.

Using the Dial Keypad

1. Press the phone number.
 - Use the **dialing pad** to enter the required number. The telephone number will appear on the display.
 - Press the **[Cancel]** button for a short time to modify an incorrectly entered number, one by one. Press the **[Cancel]** button for a long time to completely delete all the incorrectly entered numbers at once.

2. Press the  button.

- Press the  button to hang up the phone.

Using the Call Logs

You can view not only the latest calls or received phone numbers but also absent subscriber messages.

This is achieved by simply selecting the desired phone number for information or to make a call.

1. Press the  button.

2. Using the   buttons to view the call history.

-  : Latest received number
-  : Latest called number
-  : Missed call

3. Select the phone number and press the  button.

Maximum saved number

The maximum of up to 297 phone numbers can be saved in the list.

If they are all filled up, the oldest phone number will be erased when a new phone number is saved.

Answering a Call

Press any button except **[Volume]** button, or( Button) to start a conversation while the phone is ringing.

You can set how to answer the incoming call '7. Phone Settings' from Application Menu' in this guide.

Volume Adjustment

You can adjust the key button volume, and voice volume from the other party.

Key Button Volume Adjustment

You can adjust the volume with key button while on the phone.

Select the one of 5 volume levels you want by pressing the **[Volume]** button in the initial screen.

If a key is pressed during a call, the key tone will not be played unless when using an earphone.

Voice Volume Adjustment

While having a conversation on the phone, you can adjust the voice volume from the other party.

Select the one of 5 volume levels you want by pressing the **[Volume]** button while having a conversation.

Setting the Vibration Mode

For not interrupting other people in public places or during a meeting, you can set the phone to vibration instead of ringing.

To Set up the Vibration Mode

Press the  button for more than 2 seconds on the initial screen. Then the Vibration mode icon  will be displayed on the top of phone screen and the phone will vibrate instead of ringing if there is an incoming call.

To Disable the Vibration Mode

Press the  button for more than 2 seconds on the initial screen. Then the Vibration mode icon  disappears and the Vibration mode will be disabled.

Setting the Automatic Key Lock

In order to protect your privacy, this function prevents others from viewing your information.

When the automatic key lock is set, no keys of the phone will work, and functions other than answering a call cannot be used. until you disable the Automatic Key Lock.

To Set up the Automatic Key Lock

Press the  button for more than 2 seconds on the initial screen.

Then, the screen will display the automatic key lock icon .

To Disable the Automatic Key Lock

Press the  button for more than 2 seconds on the initial screen.

And then the automatic key lock function is disabled.

Entering Characters

This section describes how to enter uppercase/lowercase English characters and special characters.

Buttons Used for Entering Characters

The buttons used for entering the characters are as follows.

- **[MENU]** button: Screen for entering **[ENG(uppercase)]** appears first and a menu bar prompting you to select **[eng(lowercase) / Sym(Special character)]** on the lower part of the screen.

-   button:

Enter the desired characters from **[ENG/eng/Sym]**.

Note: [_] is for two digit speed dial number.

How to Enter Uppercase and Lowercase

Pressing the **[MENU]** button allows you to enter English Uppercase letters automatically and to select one type from the **[ENG/eng/Sym]** located on the lower part of the screen using

the   buttons.

Then, the screen will provide an input field for the character type you selected and the other two character types will appear on the menu bar.

For example, if **[MENU]** is selected, **[ENG/eng/Sym]** will appear on the menu bar.

Press the     buttons to move the cursor.

Modify the desired characters using the **[Cancel]** buttons and place the cursor on the appropriate location to insert the characters. If a character to be entered is the same as the last

entered character, press the     buttons to move the cursor right one space.

Count Dial Button	1	2	3	4	5	6	7	8	9	10
0	'space'									
1	.									
2	A	B	C							
3	D	E	F							
4	G	H	I							
5	J	K	L							
6	M	N	O							
7	P	Q	R	S						
8	T	U	V							
9	W	X	Y	Z						
*	/									
#	@									

To enter characters, press the button where a desired character is displayed repetitively to display the next character.(e.g., If the number **[5]** button is pressed, the character 'J' is entered. If the **[5]** button is pressed once more, the 'K' is entered.)

How to Enter Special Characters

Press the **[MENU]** button and select **[Sym]** from the menu bar on the lower part of the screen. Then the special characters are displayed in the same order.

+ - / * = . , \ ! ? _ : ; [] () " ' & @ ~ ^ %
\$ < > | ' { }

Select desired special characters using

the   buttons and press the **[OK]** button to enter the haracter on the screen.

How to Enter Numbers

Press the dial button for more than 2 seconds so that numbers are entered irrespective of which character has been selected from out of the English Uppercase/English Lowercase/Special Characters has been entered.

CONVENIENT FEATURES

Features on a Calling Failure

This section describes functions that can be used for internal calls when the other party is busy or when a call cannot be connected due to features such as 'Do Not Disturb', set by the other party.

Call Back

If an internal call cannot be connected, you can reserve the call.

1. If the other party does not answer your call or if he or she is in 'Busy' or in 'Do Not Disturb' status, press **[MENU]** button.
2. Press the  button and move to **[1. Call Back]**.

3. Press the **[OK]** button.
 - Your phone will ring when the other party either finishes the call or clears the DND function. Once you pick up your phone, the phone of the other party starts to ring.

Station Message

If an internal call cannot be connected, you can send a message.

1. If other party is not answering, 'busy' or 'rejecting call' is set, then press the **[MENU]** button.
2. Press the   button and move to **[2.Message]**

3. Press **[OK]** button.
 - The  icon appears on the other party's phone.
 - The other party can check the message(phone number) by pressing **[MENU] → [5.Soft Menu] → [1.Station Msg.]**.

Camp On

When you call another station and receive a busy signal you can use "camp on" to alert the station.

1. If other party is not answering, 'busy' or 'rejecting call' is set, then press the **[MENU]** button.
2. Press the   button and move to **[3. Camp On]**

3. Press **[OK]** button.
 - When the other party received the camp on tone, he can place the current call on hold to answer to the second call.

Features Used During a Call

These convenient functions may be used during a call.

Mute on a Call

This is used to block your voice from your phone during a call. But you can still hear the other party.

1. Press the **[MENU]** button during a phone conversation.
2. Press the   button and move to **[1. Mute]**.

3. Press the **[OK]** button.

Conference Call while on the Phone

Setting function for conference call while on the phone.

1. Press the **[MENU]** button while on the phone with other party.
2. Select the **[2. Conference]** using   button.

3. Enter the 3rd party phone numbers who wants to participate in a conference.

4. When the call is connected with the 3rd party, press the **[MENU]** button and select the **[2. Conference]**. Then press the **[MENU]** button once more and select the **[2. Conference]** to start the conference. If you want to delete the one member while in a conference, press the **[MENU]** and select the **[2. Conference]** and enter the member's phone number that you want to delete when the 'make next call' message appears.

Call Transfer

This function allows to transfer a call to the other party during a call conversation.

1. Press the **[Transfer]** button during the conversation.
2. Press the call number to be transferred.
3. Press the **[End]** button to disconnect the call.
4. Press the **[Transfer]** button again in transfer mode to resume the call with the previous caller again.

Holding a Call

This is used to hold a call for a while during a phone conversation.

1. Press the **[Hold]** button during the conversation.
2. Re-press the **[Hold]** button in standby status to resume the hold call.

Right Navigation Key

If you press the Right arrow key during a call, a menu will appear allowing you to save telephone numbers.

- You can save the telephone number of the present caller.
- You can dial a number using the Phonebook.
- You can dial a number using the Call list.

Station Call Pickup

To pick up (answer) a call at another station.

1. Press **[6]**, **[5]** and .
2. Press the extension number of the ring phone.

APPLICATION MENUS

Menu Structure

Press the **[MENU]** button in idle mode. The main application menu will appear on the screen.

The Menu screen displays the functions-Phone Book, Utilities, Message, Soft Menu, Volume/Ring, Phone Settings, System and Help as icons.

Phone Book

Press the **[MENU]** button in idle mode, and then select the **[1. Phone Book]** icon to find out various methods to make a call.

Find Number

This function allows you to search a phone number by name, number and location.

Search by Name

You can search and make a call the desired phone number using a name.

[MENU] ▶ 1. Phone book ▶ [OK] ▶ 1. Find Number ▶

1. By Name

▶ **Enter a name** ▶ **[OK]** ▶  
▶ 

If you press the **[OK]** button without entering a name, all the numbers in the list saved will be displayed.

When entering a name, press the first letter of that name and hit the **[OK]** button. Then, all the names which include that letter will be displayed and the related phone number list will show up automatically. (e.g., Enter the name 'J' in the input field and press the **[OK]** button. All the names including 'J' will be listed.) Refer to 'Entering Characters' section in 'Basic Features' of this guide for entering characters.

Use the   buttons to move between phone number, and press  to make the call.

Search by Number

You can search and make a call the desired phone number using a phone number.

[MENU] ► 1. Phone book ► [OK] ► 1. Find Number ►
2. By Number ► Enter a phone number ► [OK] ►

If you press the [OK] button without entering a number, all the numbers in the list saved will be displayed.

The phone number list including the related phone number will be displayed in the order of addresses. (e.g., When '2' is entered, the following phone lists which include '2' and corresponding phone number will be displayed.)

Use the   buttons to move between phone number, and press  to make the call.

Search by Location

You can search and make a call the desired phone number using a speed dial number.

[MENU] ► 1. Phone book ► [OK] ► 1. Find Number ►

3. By Location

► Enter a speed dial number ► [OK] ► 

If you press the [OK] button without entering a speed dial number, all the numbers in the list saved will be displayed.

This function allows you to make a call to the desired party by simply pressing a speed dial number for longer than 2 seconds. For example, if the number '123456' is saved to the [1] button, you can simply press the [1] button until a call is connected to '123456'.

This function works only on the initial screen.

If the speed dial number is more than two digits, press the last number of the two digits for a long time.

Modifying/Deleting Phone Number

This is the method to modify or delete the saved phone number.

[MENU] ► 1. Phone book ► [OK] ► 1. Find Number ► 1/2/3 ► Enter Name/Phone number/Speed dial number ► [OK]
►   ► [MENU] ► 1. Edit ► Modify phone number ► [OK]

To delete the phone number, select [2. Delete].

Using the [Cancel] button and dial buttons, modify the phone number and press the [OK] button to save it.

Outgoing Calls

After view only the latest dialed phone number, select the desired phone number and make a call.

-  : Latest received number
-  : Latest called number
-  : Failed call

[MENU] ► 1. Phone book ► [OK] ► 2. Outgoing Calls
►   (Select the phone number) ► [OK] or 

The maximum of up to 99 phone numbers can be saved in the list.

If they are all filled up, the oldest phone number is erased when a new dialed phone number is saved.

Incoming Calls

After view only the latest received phone number, select the desired phone number and make a call.

-  : Latest received number
-  : Latest called number
-  : Failed call

[MENU] ► 1. Phone book ► [OK] ► 3. Incoming Calls

►   (Select the phone number) ► [OK] or

The maximum of up to 99 phone numbers can be saved in the list.

If they are all filled up, the oldest phone number is erased when a new received phone number is saved.

Missed Calls

After view only the latest missed phone number, select the desired phone number and make a call.

[MENU] ► 1. Phone book ► [OK] ► 4. Missed Calls ►

  (Select the phone number)

► [OK] or 

The maximum of up to 99 phone numbers can be saved in the list.

If they are all filled up, the oldest phone number is erased when a new received phone number is saved.

New Entry

This function allows you to save the new phone number by using the menu function.

[MENU] ► 1. Phone book ► [OK] ► 5. New Entry ►

Enter name, phone number(home, station, mobile), speed dial number ► [OK]

You can directly enter the phone number on the idle mode, and save that number using the  button.

Enter the name that you want to save by using the dial buttons(up to 10 characters). Refer to 'Entering Characters' section in 'Basic Features' of this guide for entering characters.

Delete Lists

This function enables you to delete phone numbers registered in the phone book or calling numbers and called numbers.

[MENU] ► 1. Phone book ► [OK] ► 6. Delete List ►

[OK]

► 1. Del Phone Book ► Enter a Password ►

(Yes/No)

► [OK]

- To delete the list of calling numbers saved in the phone book, select **[2. Del Outgoing]**.
- To delete the list of called numbers saved in the phone book, select **[3. Del Incoming]**.
- To delete the list of missed call numbers saved in the phone book, select **[4. Del Missed]**.
- To delete the list of all numbers saved in the phone book, select **[5. Del All]**.

Speed Dialing

1. Press and hold the last digit of the speed dial list.

- Example: Speed dial list 01 is 99728896700.
- Press 0, 1, and hold 1 will dial 99728896700.

Note: Speed dial list can be assigned from the phone book item.

Redial

1. Press  button.

2. Select the list by pressing  or  button.

3. Press  button to dial.

Utilities

Press the **[MENU]** button in idle mode, and then select the **[2. Utilities]** icon.

Alarm

You can set or disable the alarm.

[MENU] ► 2. Utilities ► [OK] ► 1. Alarm ► [OK] ►

1. Set Alarm

► [OK] ►   **(Select alarm interval) ► [OK]**

► Enter alarm time ► [OK]

- To disable the alarm, select **[2. Reset Alarm]**.
- To change the alarm melody, select **[3. Alarm Melody]**.
You can choose one among 5 melodies.

When the alarm is set, the alarm icon  will appear on the screen.

Schedule

This function allows you to enter important tasks or appointments and then set the phone alarms on those dates. So, you can easily use this function to manage a personal schedule. If the alarm is set up as mute, you can directly check what the schedule is on the screen.

[MENU] ► 2. Utilities ► [OK] ► 2. Schedule ► [OK] ►

Select dates ► [OK] ► Enter time, contents

► Select Melody ► [OK]

Select melody type using   button.

Modifying/Deleting Schedule

This function allows you to modify or delete the registered schedule.

[MENU] ► 2. Utilities ► [OK] ► 2. Schedule ► [OK] ►

Select dates

► [OK] ► select schedule list ► [MENU] ► 1. Modify

► Modify Time/contents/melody ► [OK]

To delete a schedule, select [2. Delete].

To add a schedule, select [3. Add].

To delete all schedule, select [4. Delete All].

Calculator

This function allows you to do four arithmetical operations (addition, subtraction, multiplication and division) in a simple way.

[MENU] ► 2. Utilities ► [OK] ► 3. Calculator ► [OK]

► Enter numbers ►   (Select arithmetical operation symbol) ► Enter numbers

► [OK] ► The result is displayed.

- When entering negative numbers, press

 button.

- When incorrect numbers are entered, press the

[CANCEL] button.

Press the   button to reuse the result.

Press the [CANCEL] button to reset or the  button to terminate.

World Time
